

Dear Parents,

Hello! How are you all?! I hope this letter is finding you and your family well. We miss the smiling faces each morning and all those heartwarming moments with your children throughout the day. As a school and as a grade we want to make the rest of this year purposeful, effective and successful for all. We have taken a critical look at our work schedule moving forward and have changed some aspects of our "Remote Learning Day."

Below is the schedule that First Grade will be following daily. As a grade we will be using Raz-Kids kids as our Reading Platform. All students have individualized accounts that have been created. In using this program, all student's reading will be tracked with reports sent to each teacher daily. Also, we will be using the website Zearn in order to track student progress in mathematics in the same way. Students will complete lessons and assignments and all results will be reported to the teacher daily. All student user names and logins will be sent to you individually via Remind or E-mail, depending on how you communicate with your child's classroom teacher.

If there are any questions with the schedule, please contact your child's classroom teacher via email or Remind. If there is any trouble with logging into any of your children's accounts, please reach out to our Parent Coordinator and Grade Contact, Donna Salerno by phone or email. She will be happy to help you further

Regards,  
The First Grade Teachers
